EMORY WOODS
apartments

LEASING DASHBOARD · USER GUIDE

Run Emory Woods from one screen.

A friendly, step-by-step handbook for the **emorywoods.vercel.app/jr-dashboard** — tenants, move-ins, move-outs, documents, brochures, carports and reports. No experience needed.

5 min	14	1 page
Quick start — enough to do your first move-in.	Step-by-step cards for everyday jobs.	Cheat sheet at the back. Print it, pin it up.

INSIDE THIS GUIDE

Contents

✦ **Words you'll see** — Plain-English meanings, with pictures — 3

01 **Getting in** — The web address and the access code — 4

02 **A tour of the screen** — What every part of the screen is for — 4

03 **Finding a unit** — The search box — 7

04 **Tenants: in, out & everything between** — New tenant, moving in, leaving, moving out — 8

05 **Getting a unit ready & renewals** — Repairs, locks, tours, promos, lease ends — 12

06 **Creating documents** — Deposit receipt, letters, insurance — and how to print or save them — 13

07 **The brochure** — New prices, fresh brochure — 17

08 **Carports** — Who parks where — 18

09 **Reports & lists** — The weekly report, your own lists, the big list view — 19

10 **Colors, questions & cheat sheet** — What every color means; quick fixes — 22

QUICK START

Your first 5 minutes

Brand new? Do these five things in order. You can't break anything — nothing changes until you press a *Save* button.

1. **Open the dashboard** — type **emorywoods.vercel.app/jr-dashboard** into the bar at the very top of your internet browser, type the access code, press ENTER.
2. **Click a building** on the map. The list on the right now shows only that building.
3. **Click any apartment** in the list. A box opens with its details. Look around, then press CANCEL.
4. **Type a tenant's last name** in the search box at the top. Click their name in the results.
5. **Click** CREATE DOCUMENT, choose *Brochure*, then click GENERATE BROCHURE. The brochure opens, ready to print.

How to read this guide

Step cards
One job, numbered steps, start to finish.

1 Red dots
Point at the exact spot in the pictures.

BUTTON
Words in a box are buttons — written exactly as you'll see them.

Colored boxes
Gold = handy tip. Red = be careful. Blue = good to know.

GOOD TO KNOW When you save, the change is instant for everyone who uses the dashboard.

NOT A COMPUTER PERSON? START HERE

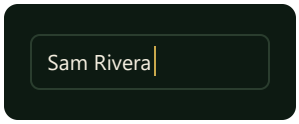

Words you'll see

Every "computer word" used in this guide, in plain English. Flip back here any time.

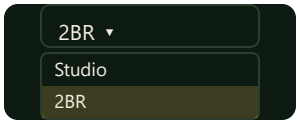

Button

A box with words on it. Point at it with the mouse and press the left mouse button once ("click").

Box (to type in)

An empty space for words or numbers. Click inside it, then type.

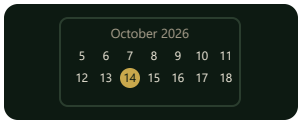

Drop-down list

A box with a little arrow ▾. Click it, a list opens, click your choice.

Tick box

A small square. Click it to put a tick in it (yes). Click again to remove the tick (no).

Date box

Click it and a small calendar appears. Click the day you want.

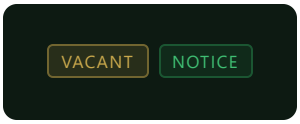

Tab

Labels in a row, like the tabs on paper folders. Click one to open it. The open one is gold and underlined.

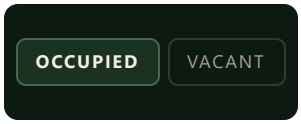

Filter

Hides everything except what you asked for — like a sieve. Nothing is deleted; turn the filter off and it all comes back.

Label (badge)

A small colored word on an apartment that tells you something about it at a glance.

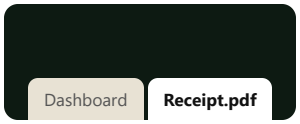

Status

Where an apartment stands: someone lives there (Occupied), it's empty (Vacant) or the tenant is leaving (Notice).

Window (pop-up box)

A box that opens on top of the screen. Close it with *Cancel*, *Close* or ×.

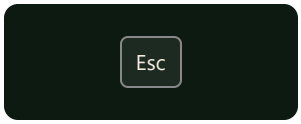

New tab

A second page that opens at the top of your internet browser. Click the first tab to go back to the dashboard.

PDF

A document file that looks the same on every computer. You can print it, save it or email it.

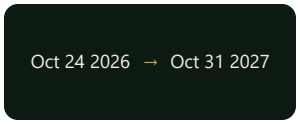

Esc key

Top-left key on your keyboard. Press it to close a box or clear a search.

Partial-month rent

In the first month the tenant only pays for the days they actually live there.

Lease From / Lease To

The day the lease starts and the day it ends.

Scroll

Move further down a page or box: roll the mouse wheel, or drag your finger on a laptop pad or phone.

CHAPTER 01 & 02

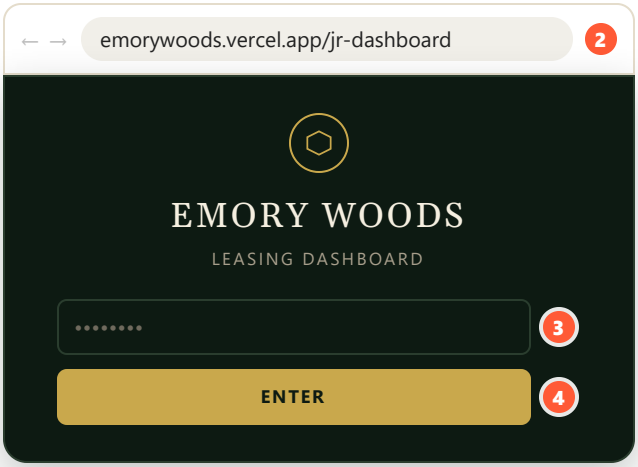

Getting in & finding your way 01

One web address, one password, one screen. Here's what everything on it does.

Opening the dashboard

1. Open your internet browser (Chrome, Edge or Safari).
2. Click the long bar at the very top, type **emorywoods.vercel.app/jr-dashboard** and press the Enter key.
3. Type the **access code** (password) you were given into the box.
4. Click **ENTER**.

A spinning circle says *Loading* for a few seconds. Then the dashboard appears.

What you'll see when you open the address

> **TIP** Save it as a bookmark (press **Ctrl + D**) so you don't have to type the address again. The computer also remembers the code.

> **WATCH OUT** "Incorrect access code" and the box shakes? Check Caps Lock is off and type it again.

The top of the screen

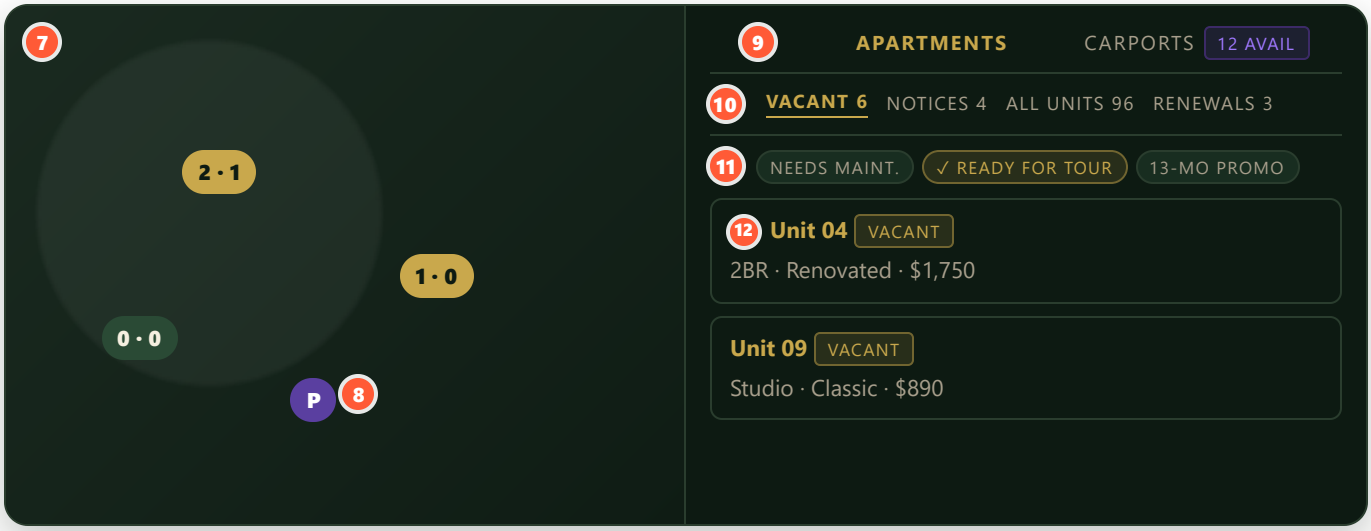

This strip is always at the top, wherever you are.

1. **Create Document** — make receipts, letters, insurance forms and the brochure. *Ch. 06–07*
2. **Map / Table** — see the map, or one long list of every apartment. *Ch. 09*
3. **Vacant/ Notices Report** — the weekly one-page report to print. *Ch. 09*
4. **▦ Table** — make your own printable list or checklist. *Ch. 09*
5. **Search box** — type a name or unit number to find it. *Ch. 03*
6. **All Types** — show only Studios, 2-bedrooms or 3-bedrooms.

The middle of the screen: map on the left, list on the right

Below the top strip the screen splits in two. The **map** shows the buildings; the **list** shows the apartments.

Map on the left, list on the right (on a phone the list sits under the map)

7. **Building bubbles** — one per building. The numbers mean *empty apartments · tenants leaving*. Click a bubble to see only that building.
8. **Purple "P" bubbles** — carports (parking). Click one to see its spaces.
9. **Apartments / Carports** — choose what the list shows: homes or parking.
10. **Tabs** — which group of apartments to show. The number is how many.
11. **Filter buttons** — narrow the list down even more (next page).
12. **Apartment card** — one per apartment. Click it to see and change its details.

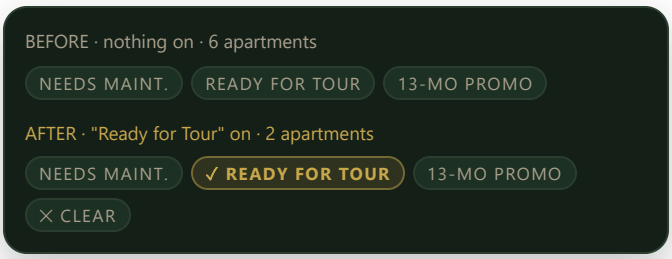

The four tabs

TAB	SHOWS YOU…	HANDY WHEN…
Vacant	Empty apartments.	Planning tours or repairs.
Notices	Apartments where the tenant has said they're leaving.	Finding the next tenant.
All Units	Every apartment.	Looking something up.
Renewals	Year-long leases that end within **30 days** (or already ended).	Reminding tenants to renew.

Filter buttons — narrowing down the list

The small rounded buttons under the tabs hide every apartment that doesn't match. Nothing is deleted.

1. Click a filter button. It turns gold with a ✓ — it's **on**.
2. Turn on a second one to narrow down further: an apartment must match *both*.
3. Click a gold button again to turn it off — or click **× CLEAR** to turn them all off.

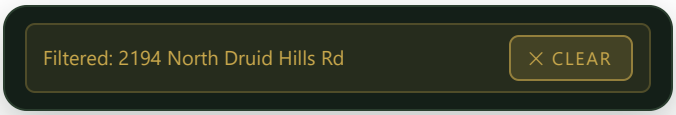

A filter button turned on

WATCH OUT "Where did all my apartments go?" A filter button is probably still on. Look for gold buttons and click **× CLEAR**.

NEEDS MAINT. Needs repairs or work.	**13-MO PROMO** Gets the 13-month deal.	**READY FOR TOUR** Clean, ready to show.	**LOCKS CHANGED** New locks done.	**MAINT. DONE** All repairs finished.

Seeing just one building

1. Click a building bubble on the map. A gold strip appears at the top of the list with the building's address.
2. The list and the tab numbers now show only that building.
3. To see every building again, click **× CLEAR** on the gold strip.

The gold strip when one building is picked

GOOD TO KNOW On a phone the map sits on top and the list is underneath. Everything else works the same.

CHAPTER 03

Finding a unit in seconds

03

The search bar looks across every building at once — no need to click the map first.

What you can type

SEARCH BY	EXAMPLE
Unit number	`04`
Tenant name (current or future)	`Johnson`
Building code	`2194 ND`
Street address	`Webster`
Anything in Notes	`dishwasher`
Building + unit, no spaces	`2194nd04` or `2194nd4`

TIP The building + unit shortcut (`2194nd04`) is the fastest way to land on one exact apartment — it's the same code used on documents and reports.

Using results

1. Start typing — results fill the screen as you go.
2. Each result shows unit, address, status, tenant, type and rent. Future tenants show in blue.
3. Click a result to open that apartment's details box.
4. Press the **Esc** key (top-left of the keyboard) or click ✕ in the search box to close results.

A search result (sample data)

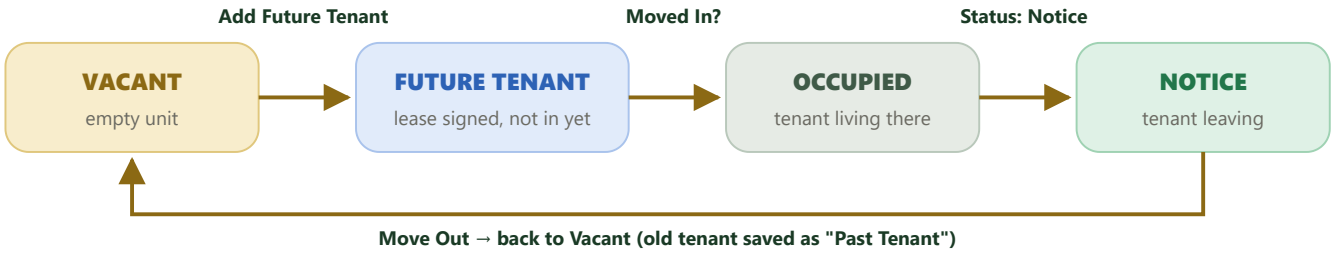

GOOD TO KNOW The **All Types** drop-down next to search also filters results. If a unit "won't show up", check it isn't set to Studio/2BR/3BR.

CHAPTER 04

Tenants: in, out & in between

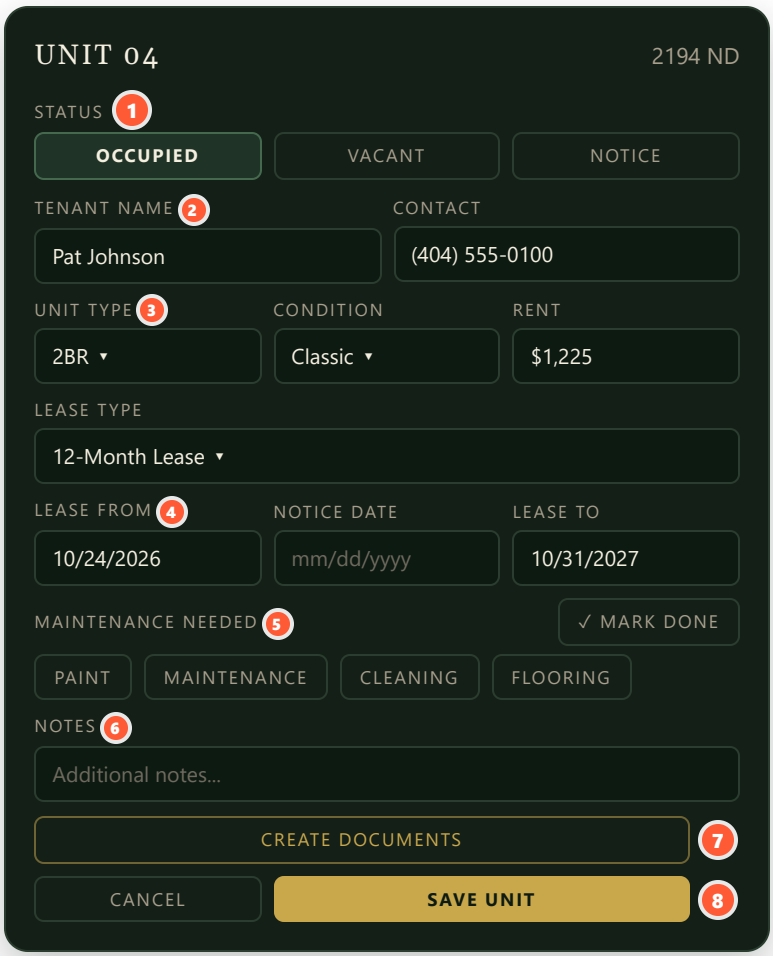

Every unit follows the same simple loop. Learn the loop and every task below makes sense.

The tenant loop

Meet the apartment details box

Click any apartment in the list (or in search results) and this box opens. Every tenant job happens here.

1. **Status** — Occupied, Vacant or Notice.
2. **Tenant** — current resident's name and phone/email.
3. **Unit details** — type, Classic/Renovated, rent (type it any way, e.g. *$1,225*).
4. **Dates** — their names change with the status. For an occupied 12-month lease they read *Last Lease Renewal / Lease From* and *Lease To*; otherwise *Move-In* and *Move-Out*.
5. **Get-ready buttons** — repairs, locks, tours, promo. *Chapter 05.*
6. **Notes** — anything else. Searchable!
7. **Create Documents** — paperwork for this unit. *Chapter 06.*
8. **Save Unit** — nothing is stored until you press this.

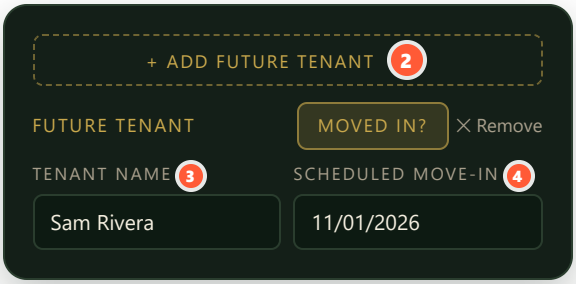

WATCH OUT Clicking outside the window or pressing CANCEL throws away your changes.

Add a new tenant (lease signed, moving in later)

⏱ 1 min · Unit must be Vacant or Notice

1. Find the unit (map → *Vacant* tab, or search) and click it.
2. Scroll down and click **+ ADD FUTURE TENANT**.
3. Type the new tenant's **Tenant Name**.
4. Pick the **Scheduled Move-In** date.
5. Press **SAVE UNIT**.

✓ **You'll know it worked:** the apartment card shows a blue **Future:** strip with the name and move-in date. The unit also appears at the top of the *Create Document* apartment list under *Future Tenant*.

Future Tenant section of the details box

The new tenant has moved in

⏱ 30 sec · Needs a Future Tenant name

1. Open the unit.
2. In the Future Tenant section click **MOVED IN?**
3. Check the filled-in fields (see right) — adjust anything that's different.
4. Press **SAVE UNIT**.

✓ **You'll know it worked:** the label reads **OCCUPIED** and the card shows *Lease From … → …*

"Moved In?" does all this for you

- Status → **Occupied**
- Future tenant's name → **Tenant Name**
- Scheduled move-in → **Lease From**
- Lease Type → **12-Month Lease**
- **Lease To** = last day of the same month, one year later *(Oct 24 2026 → Oct 31 2027)*
- Switches off the repair, lock and tour buttons and removes the old past-tenant box

WATCH OUT The button is greyed out until the Future Tenant **name** is filled in. If the new tenant is month-to-month, change *Lease Type* before saving.

Record a tenant who already lives there

⏱ 1 min · For catching up records

1. Open the unit and click **OCCUPIED** under Status.
2. Fill in **Tenant Name** and **Contact**.
3. Check **Unit Type**, **Condition** and **Rent**.
4. Choose **Lease Type**: *Month-to-Month* or *12-Month Lease*.
5. Enter the **Lease From** date (their move-in or latest renewal). For 12-month leases **Lease To** fills itself in.
6. Press **SAVE UNIT**.

A tenant gives notice

⏱ 30 sec

1. Open the unit and click **NOTICE** under Status.
2. Enter the **Notice Date** (the day they told you).
3. Enter the **Move-Out** date they plan to leave.
4. Press **SAVE UNIT**.

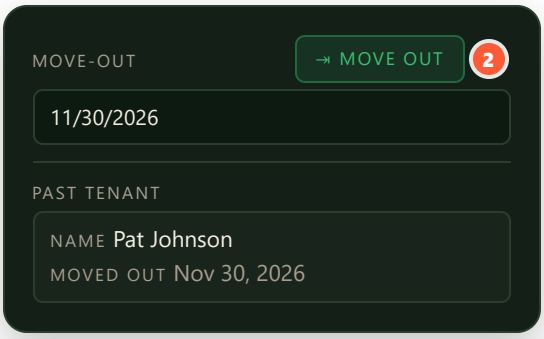

✓ **You'll know it worked:** the unit moves to the *Notices* tab and onto the Notices side of the leasing report.

Move a tenant out

⏱ 30 sec · Unit must be on Notice

1. Open the unit (it's in the *Notices* tab).
2. Next to the **Move-Out** label, click **MOVE OUT**.
3. Press **SAVE UNIT**.

What happens: status becomes **VACANT**; tenant name, contact, lease type and dates are cleared; the old tenant is kept in a grey *Past Tenant* box with their move-out date (taken from Move-Out, else Notice Date, else today).

WATCH OUT No **MOVE OUT** button? The status must be **Notice** and the Tenant Name must be filled in.

Cancel a future tenant

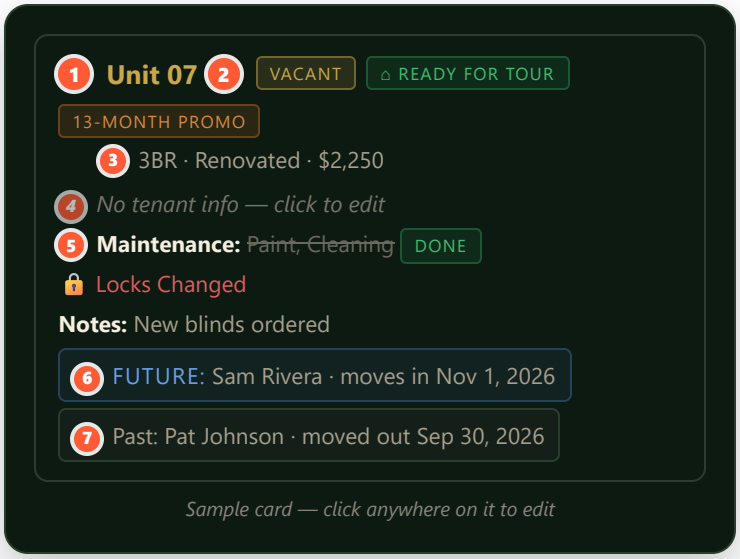

1. Open the unit.
2. Click **✕ REMOVE** in the Future Tenant section.
3. **SAVE UNIT**.

Change rent, type or notes

1. Open the unit.
2. Edit **Rent**, **Unit Type**, **Condition** or **Notes**.
3. **SAVE UNIT**.

Reading an apartment card

Each card in the list is a mini-summary. Learn to scan one and you rarely need to open it.

1. **Unit number** (with building code when viewing all buildings).
2. **Badges** — first the status, then extra labels. Full list on page 22.
3. **Type · condition · rent.**
4. **Tenant** — name and contact, or a reminder that it's empty.
5. **Repairs** — crossed-out items + *Done* mean finished.
6. **Future tenant** (blue strip).
7. **Past tenant** — who left and when.

Two labels that look alike

VACANT VACANT (RENTED)

Vacant (Rented) appears when a Vacant unit has a *Move-In* date filled in on the form. Use the Future Tenant section for upcoming tenants — the blue *Future:* strip is what documents and reports read.

OCCUPIED NOTICE

Notice is still occupied — someone lives there — but they're leaving. Notice units don't get renewal alerts.

Common mix-ups

IF YOU…	…THEN DO THIS
Clicked **Moved In?** by mistake	Press CANCEL — nothing was saved yet.
Saved a Move Out on the wrong unit	Open it, click OCCUPIED, re-enter tenant name, lease type and dates, save. (Switching to Occupied clears the Past Tenant box.)
Typed something wrong	Fix it before pressing SAVE UNIT — or press CANCEL to start again.
An apartment is missing from a tab	Check the building filter bar, the filter buttons and the All Types list.

TIP A *Notice* unit can also get a Future Tenant — line up the next person before the current one leaves.

GOOD TO KNOW Units themselves are fixed — you can't add or delete an apartment from the dashboard. "Adding" or "removing" a tenant always means editing an existing unit.

CHAPTER 05

Unit ready & renewals

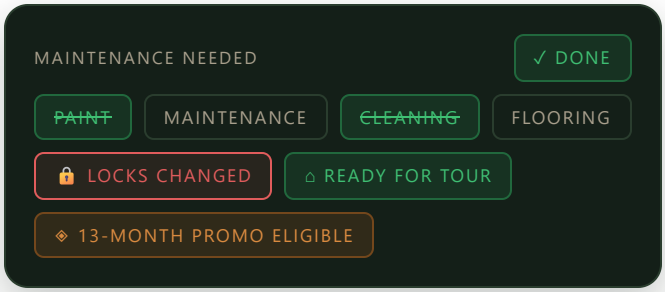

05

Track a unit from "just emptied" to "ready to show" — and never miss a lease ending.

The get-ready checklist

In the apartment's details box

1. Click each job the unit needs: **PAINT** **MAINTENANCE** **CLEANING** **FLOORING** (click again to un-tick).
2. When the locks are changed, click **LOCKS CHANGED**.
3. When all jobs are finished, click **✓ MARK DONE** — items get crossed out.
4. When it's show-ready, click **MARK READY FOR TOUR** *(Vacant/Notice only)*.
5. Optional: **MARK 13-MONTH PROMO** if the unit qualifies.
6. **SAVE UNIT**.

A unit that's fully ready — every button switched on

TIP Use the **Needs Maint.** filter button on the Vacant tab for a to-do list, and **Ready for Tour** for what you can show today.

Renewal alerts — how they work

For **Occupied** units on a **12-Month Lease**, the dashboard watches the *Lease To* date (or works it out from *Lease From*).

WHEN	YOU'LL SEE
More than 30 days left	Nothing — all good.
30 days or less	**LEASE ENDS IN 12D** + listed in **Renewals**
Date has passed	**LEASE EXPIRED**

Month-to-month and Notice units never show renewal alerts.

Renew a lease

1. Open **Renewals** and click the unit. A banner shows the end date.
2. Change **Last Lease Renewal / Lease From** to the new lease start.
3. Check **Lease To** moved one year on. If not, type it in.
4. Update **Rent** if it changed → **SAVE UNIT**.

✓ **You'll know it worked:** the unit leaves the Renewals tab.

CHAPTER 06

Creating documents

06

Fill a short form; the dashboard fills the official PDF and opens it in a new tab — ready to print, save or email.

Which document do I need?

DOCUMENT	WHEN	NEEDS
Deposit Receipt	Deposit paid / quoting move-in costs.	Apartment, name, dates, rent, deposit, pet
Welcome Letter	Before move-in; shows what's due.	Apartment, move-in date, rent, pet
Policy Letter	Part of the move-in pack.	Apartment, name, move-in date
Renters Insurance	Insurance addendum for the lease.	Apartment, name, move-in date
Brochure	Handing prospects current prices.	Prices only — no apartment. *Chapter 07*.

Two ways in

A · From the top bar

1. Click **CREATE DOCUMENT**.
2. Pick a **Document Type**.
3. Pick the **Apartment** — future tenants are listed first. The form opens.

B · From a unit

1. Open the apartment's details box.
2. Click **CREATE DOCUMENTS** above Save.
3. Choose from the **Document Type** list inside the form.

Auto-filled for you

When the apartment has a future tenant, the form starts with:

- **Applicant Full Name** ← future tenant
- **Move-In Date** ← scheduled move-in
- **Base Rent** ← unit's rent
- **Water / Sewer** ← Studio $25 · 2BR $45 Classic / $60 Renovated · 3BR $60 Classic / $80 Renovated
- **Adults** ← 1 Studio · 2 for 2BR · 3 for 3BR

Every box can be changed before you generate. Changes here *don't* touch the unit record.

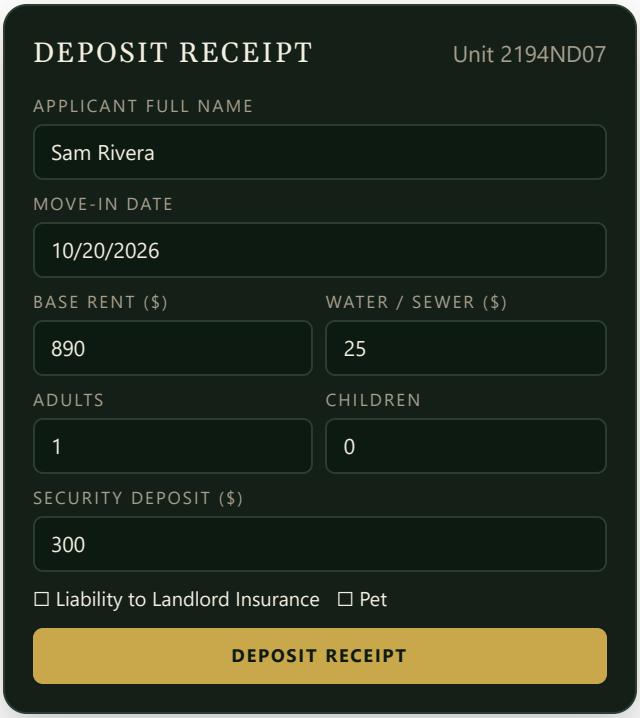

WATCH OUT Documents open in a **new tab**. Nothing opened? See page 16.

Make a Deposit Receipt

⏱ 2 min · Opens a filled PDF

1. **CREATE DOCUMENT** → *Deposit Receipt* → pick the apartment.
2. Check **Applicant Full Name** and **Move-In Date**.
3. Check **Base Rent** and **Water / Sewer**.
4. Set **Adults** and **Children**.
5. Type the **Security Deposit** amount.
6. Tick *Liability to Landlord Insurance* and/or *Pet* if they apply. With Pet, tick *Pet over 25 lbs* if it is.
7. Click **DEPOSIT RECEIPT**.

✓ **You'll know it worked:** a new tab opens with the completed receipt. Print or download it from there.

How the money is worked out — you don't have to do it

October 2026

Sun	Mon	Tue	Wed	Thu	Fri	Sat
				1	2	3
4	5	6	7	8	9	10
11	12	13	14	15	16	17
18	19	**20**	**21**	**22**	**23**	**24**
25	**26**	**27**	**28**	**29**	**30**	**31**

*Move-in Oct 20 → tenant pays for the **12 gold days** out of 31*

1. **Monthly bill** = rent + water/sewer (plus $25 for a pet over 25 lbs).
2. **First month** — the tenant only pays for the days they live there, counting move-in day.
3. **Pet?** A one-time $300 pet fee is added.
4. **Moving in on one of the last 3 days of a month?** Next month's full rent is added too, so they don't pay twice in a few days.

Example 1 · Studio, moving in Oct 20

Monthly bill ($890 rent + $25 water)	$915.00
Days lived in October	12 of 31
Due at move-in	**$354.19**
First full payment	Nov 1

Example 2 · Same studio, moving in Oct 29

3 days of October	$88.55
+ all of November (last-3-days rule)	$915.00
Due at move-in	**$1,003.55**
First full payment	Dec 1

GOOD TO KNOW The security deposit is shown separately on the receipt. It is not part of "Due at move-in".

Welcome Letter

⏱ 1 min · Studio letter picked automatically

1. **CREATE DOCUMENT** → *Welcome Letter* → pick the apartment.
2. Check **Move-In Date**, **Base Rent**, **Water / Sewer** and the Pet boxes.
3. Click **WELCOME LETTER**.

Prints: street address, apartment #, move-in date, and the amount due at move-in — the same *balance due* as the deposit receipt.

TIP Make the Deposit Receipt and Welcome Letter with the same numbers so the amounts match.

Policy Letter

⏱ 30 sec

1. *Policy Letter* → apartment.
2. Check **Applicant Full Name** and **Move-In Date**.
3. Click **POLICY LETTER**.

Prints date, name and full address (street + #apt).

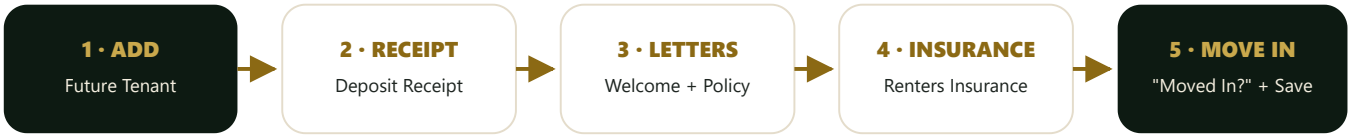

Renters Insurance

⏱ 30 sec

1. *Renters Insurance* → apartment.
2. Check **Applicant Full Name** and **Move-In Date**.
3. Click **RENTERS INSURANCE**.

Prints date, name and full address.

The move-in paperwork run

Doing step 1 first means steps 2–4 fill in the name and move-in date for you.

WATCH OUT The dashboard doesn't keep a copy of documents. Save it if you'll need it again — or just make it again from the dashboard.

GOOD TO KNOW Next page: what to do when the document opens — printing it, saving it, emailing it, and what to do if it *doesn't* open.

Printing, saving & emailing a document

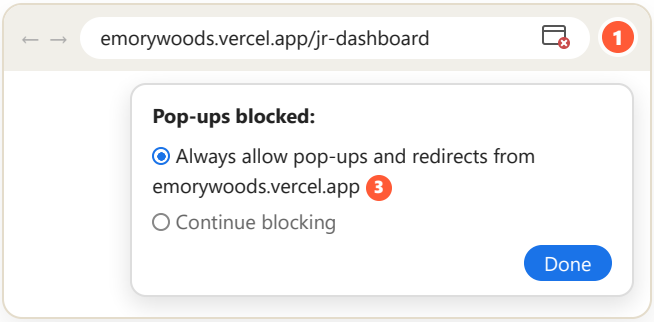

Every document opens in a **new tab** at the top of your browser. Here's what to do next.

Nothing opened? Your browser blocked it

One-time fix

Browsers sometimes stop new tabs from opening, to protect you from ads. You only need to allow it once.

1. Look at the **right end of the address bar** (the long bar at the top). A small icon with a red ✕ appears.
2. Click that icon.
3. Click **"Always allow pop-ups and redirects from emorywoods.vercel.app"**, then **Done**.
4. Go back to the dashboard and click the document button again.

What it looks like in Chrome (Edge looks almost the same)

Print it

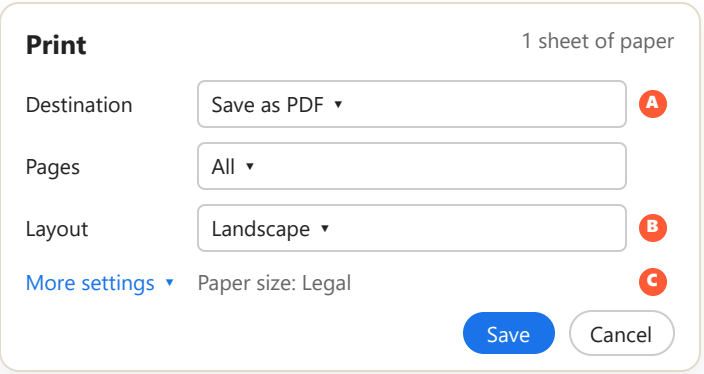

1. In the document's tab, click the **printer icon** at the top right — or hold **Ctrl** and press **P**.
2. Next to **Destination** (or *Printer*), pick the office printer.
3. Click **Print**.

Save it (to email later)

1. Click the **download arrow** ↓ at the top right of the document.
2. Give it a clear name, e.g. *2194ND07 Deposit Receipt*, and click **Save**.
3. It goes to your **Downloads** folder. In your email, click the paper-clip (attach) and pick it from there.

The print window, explained

Reports and lists (Chapter 09) go straight to this window. To make a PDF file instead of paper, choose **Save as PDF** as the destination.

- **A** **Destination** — click it and pick the printer for paper, or **Save as PDF** for a file.
- **B** **Layout** — *Landscape* = sideways (wide). *Portrait* = upright (tall).
- **C** **Paper size** — under *More settings*. The weekly report uses **Legal** (the long paper).

CHAPTER 07

The brochure

07

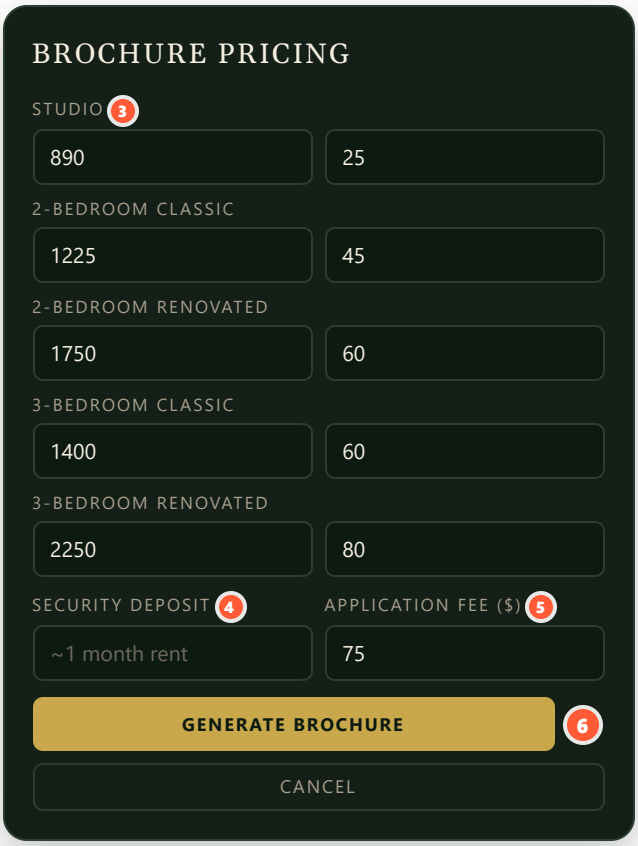

Prices changed? Print a fresh, fully designed brochure in under a minute — no design software.

Create a brochure

⏱ 1 min · No apartment needed

1. Click **CREATE DOCUMENT**.
2. Choose **Brochure**. The *Brochure Pricing* form opens straight away.
3. For each of the 5 floor plans, set the **Base rent** (left box) and **Water/sewer** (right box).
4. Set **Security Deposit** — a number (*500*) or words (*Half month's rent*). Leave empty for "~1 month rent".
5. Set **Application Fee ($)** (default 75).
6. Click **GENERATE BROCHURE**.

✓ **You'll know it worked:** the brochure opens in a new tab with your prices printed on the floor-plan page and fees on the cover.

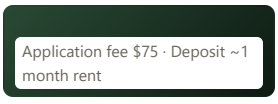

Left box = base rent · right box = water/sewer

Starting prices in the form

FLOOR PLAN	BASE	WATER/SEWER
Studio	$890	$25
2-Bedroom Classic	$1,225	$45
2-Bedroom Renovated	$1,750	$60
3-Bedroom Classic	$1,400	$60
3-Bedroom Renovated	$2,250	$80

What prints where

Page 1 · Cover
fee & deposit line

Page 2 · Floor plans
price line under each plan

GOOD TO KNOW Prices reset to the starting values each time you open the form — and your changes here never change any unit's rent.

CHAPTER 08

Carports

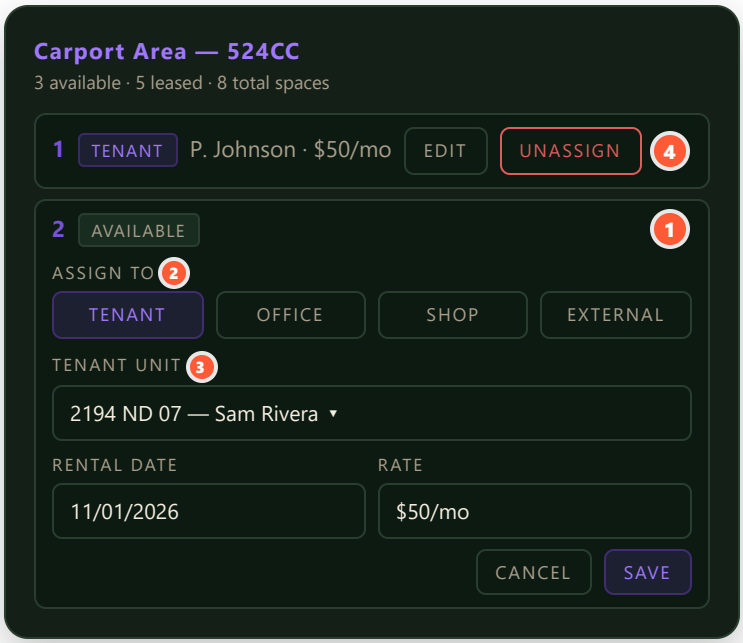

08

Who parks where, at what rate — and which spaces are free.

Finding carports

- **Map view:** click CARPORTS at the top of the right panel, or click a carport marker on the map to jump to that area.
- **Table view:** pick the CARPORTS tab. A summary reads *X available · Y tenant · Z office · W shop · N total.*

Click any carport row to open its **Carport Area** window, listing every space in that area.

Carport Area window (sample data)

Space types

BADGE	MEANING
AVAILABLE	Free to rent.
TENANT	Rented to an Emory Woods resident (linked to their unit).
OFFICE	Reserved for the leasing office.
SHOP	Reserved for the maintenance shop.
EXTERNAL	Rented to someone who doesn't live here.

Assign a space

1. Open the carport area, find the space, click ASSIGN (or EDIT).
2. Choose **Tenant**, **Office**, **Shop** or **External**.
3. *Tenant:* pick the **Tenant Unit** (name and address fill in), add **Rental Date** + **Rate**. *External:* type **Name**, **Phone**, date and rate. *Office / Shop:* notes only.
4. Click SAVE.

Free up a space

1. Open the carport area.
2. Click UNASSIGN next to the space.

WATCH OUT Unassign happens **instantly** — there's no "are you sure?". Rate, date and person details are wiped.

TIP Only apartments with a tenant appear in the Tenant Unit list. Save a move-in first.

CHAPTER 09

Reports & lists

09

The weekly leasing sheet in one click, plus a do-it-yourself table for anything else.

Print the Vacant / Notices report

⏱ 30 sec · Legal paper · landscape

1. Click **⤓ VACANT/ NOTICES REPORT** in the top bar. A *Leasing Report* preview opens.
2. Click **PRINT**. In the print window choose a printer — or **Save as PDF**.
3. Check the paper is **Legal, Landscape**. Press **CLOSE** (or the Esc key) when done.

Reading the report

EMORY WOODS Leasing Report — Thursday, October 1, 2026

VACANT UNITS (3)

UNIT	TYPE	RENT	FUTURE	MOVE-IN	P	M	C	F	DONE	LOCK	TOUR
2194ND07	Eff	$890	Rivera	11/01/2026	✓	✓	✓		✓	✓	
2194ND12	2BR	$1,225			✓	✓		✓			

MOVE-OUT NOTICES (1)

UNIT	TYPE	RENT	MOVE-OUT	TENANT	FUTURE	MOVE-IN
2194ND04	2BR	$1,225	11/30/2026	Johnson		

COLUMN	MEANS
P · M · C · F	Paint · Maintenance · Cleaning · Flooring needed
Done · Lock · Tour	Maint. done · locks changed · ready for tour
Eff	Efficiency (Studio)
Names	Last names only, for privacy

LEFT STRIPE	MEANS
Gold	Vacant, future tenant lined up
Red	Vacant, nobody lined up — focus here
Green	Move-out notice

TIP The report always covers **every building**, sorted by street then number. Update units first — the report reflects what's saved right now.

TIP Two buttons say "Table": the *Map / Table* switch changes the view; the ▦ **Table** button with the grid icon lets you make your own list (next page).

Make your own list or checklist

Need a sign-up sheet, an inspection checklist, or a page for meter readings? The ▦ TABLE button makes a printable grid: the apartments you pick go down the left side, and the headings you type go across the top.

STEP 1 Select Units → **STEP 2** Build Columns → **STEP 3** Preview & Print

1 · Select Units

1. Click ▦ TABLE.
2. Tick units, or search then SELECT ALL.
3. CLEAR unticks all.
4. Click NEXT (N SELECTED).

2 · Build Columns

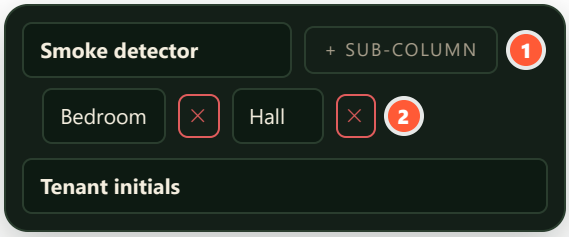

1. Rename *Column 1* by typing over it.
2. + ADD COLUMN for more.
3. + SUB-COLUMN splits a column (e.g. *Smoke detector → Bedroom / Hall*).
4. Optional: type into the cells below.
5. REMOVE / ✕ deletes. Then PREVIEW.

3 · Preview & Print

1. Pick PORTRAIT or LANDSCAPE.
2. Click PRINT / EXPORT.
3. Choose a printer or **Save as PDF**.
4. BACK to change anything.

What is a "sub-column"? A picture explains it

A sub-column splits one heading into smaller boxes underneath it. Example: an annual smoke-detector check where each apartment has two detectors.

What you type in the dashboard

→

	SMOKE DETECTOR		
UNIT	BEDROOM	HALL	TENANT INITIALS
2194ND01			
2194ND02			

What gets printed

1. Type the main heading, then click + SUB-COLUMN once for each smaller box you want.
2. Type a name in each smaller box. Click the red ✕ to remove one.

WATCH OUT These lists are **not saved**. If you close the window (Close, the Esc key, or clicking outside it) everything is gone — print it or save it as a PDF first.

The big list view

Prefer a list like Excel instead of the map? Every apartment, one per line, with every detail side by side.

1. At the top, click **TABLE** in the *Map* | *Table* switch. (Not the ▦ **Table** button — that one makes your own list.)
2. Choose **Units** (apartments) or **Carports** (parking) just above the list.
3. Click any line to open that apartment's details.
4. Click **MAP** to go back to the map.

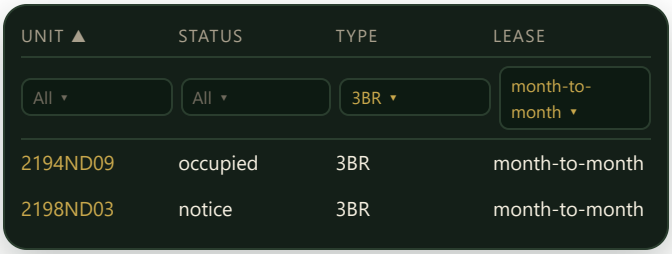

Putting the list in order (sorting)

Click a heading — e.g. **Rent** — and the list is put in order by rent, lowest first. Click the same heading again for highest first. A small ▲ or ▼ shows which way.

Showing only some lines (filtering)

Under each heading is a small box:

- Boxes with ▾ are drop-down lists — click and pick, e.g. *3BR*. Columns like Paint or Tour offer *Yes* or *No*.
- Boxes that say *Filter…* are for typing — e.g. part of a tenant's name.
- **CLEAR ALL** turns every filter off again.

Showing only 3-bedrooms on month-to-month leases (sample)

TIP Example question: "*Which 3-bedrooms are on month-to-month leases?*" Pick **3BR** under *Type* and **month-to-month** under *Lease*. Done.

GOOD TO KNOW The list is very wide. Scroll sideways (hold **Shift** and roll the mouse wheel) to see the columns on the right.

CHAPTER 10

Colors & quick fixes

10

Every color on the screen, and answers to the questions people actually ask.

What the colored labels mean

OCCUPIED	Someone lives there.
VACANT	Empty.
VACANT (RENTED)	Empty, with a Move-In date entered.
NOTICE	Tenant is leaving.
FUTURE: strip	Next tenant + move-in date.
READY FOR TOUR	Show-ready.
13-MONTH PROMO	Eligible for the 13-month deal.
LEASE ENDS IN XD	12-month lease ends in X days.
LEASE EXPIRED	End date has passed.
🔒 Locks Changed	Locks changed.
~~Paint~~ DONE	Maintenance finished.
12 AVAIL	Free carport spaces.

FAQ & troubleshooting

I changed something but it didn't stick.

You closed the window without **Save Unit**. Reopen, redo, save.

A document didn't open.

Your browser blocked it. Follow the pictures on page 16 — it's a one-time fix.

The document shows the wrong name or date.

Fix the boxes in the document form before generating — or fix the unit's Future Tenant, then start again.

"Moved In?" or "Move Out" is greyed out.

Moved In? needs a Future Tenant name. Move Out needs status *Notice* and a Tenant Name.

A unit is missing from my list.

Click ✕ Clear on the gold strip and on the filter buttons, and set All Types back. Or just search for it.

Can I add or delete an apartment?

No — the unit list is fixed. Ask the site administrator.

Can I undo?

There's no undo button. Open the unit and set the values back, then save.

Asked for the access code again.

New browser, cleared data, or the code was changed. Ask your manager.

TEAR-OFF PAGE

Cheat sheet

Every job in one line. → means "then click". Always finish unit edits with **SAVE UNIT**.

New tenant signed

Open unit → + Add Future Tenant → name + Scheduled Move-In → Save Unit

Tenant moved in

Open unit → Moved In? → check dates/lease type → Save Unit

Tenant gave notice

Open unit → Notice → Notice Date + Move-Out → Save Unit

Tenant moved out

Open unit (Notices tab) → Move Out → Save Unit

Cancel future tenant

Open unit → ✕ Remove → Save Unit

Record existing tenant

Open unit → Occupied → name, contact, lease type, Lease From → Save Unit

Renew a lease

Renewals tab → unit → new Lease From (check Lease To, rent) → Save Unit

Get a unit ready

Tick Paint/Maintenance/Cleaning/Flooring → Locks Changed → Mark Done → Mark Ready for Tour

Deposit receipt

Create Document → Deposit Receipt → apartment → check numbers → Deposit Receipt

Welcome / Policy / Insurance

Create Document → type → apartment → check name & date → generate button

Brochure

Create Document → Brochure → prices, deposit, fee → Generate Brochure

Assign carport

Carports → row → Assign → type + details → Save

Free a carport

Carports → row → Unassign *(instant)*

Leasing report

Vacant/ Notices Report → Print → Legal, Landscape

Your own list

▦ Table → tick units → Next → name columns → Preview → Print / Export

Find anything

Search: unit, name, address, notes, or `2194nd04` → click result. Esc key closes.

Save

Nothing sticks until *Save Unit*.

Nothing opens?

See page 16.

30 days

Renewal alerts start.

Last 3 days

Move-in adds next month's rent.
