Dear Officer Milam,

I am writing to provide an update regarding Case #1321007, Citation #00025364CC. Our maintenance team has addressed all of the cited items as follows:

1. **Water Leak Underneath the Kitchen Sink**

Our maintenance team replaced the entire plumbing assembly underneath the kitchen sink, which resolved the plumbing leak.

2. **Failure to Maintain Kitchen Cabinets**

Our maintenance team replaced all damaged lower shelves, re-supported the base cabinets, replaced the missing cabinet doors, and repainted the interior of the base cabinets.

3. **Rodent Issue**

We inspected all potential access points, and they had previously been sealed. The range was pulled out, and the area was cleaned. The exterior perimeter was also inspected, and a bait station was found to be in place. No evidence of current rodent activity was observed.

4. **Kitchen Ceiling Water Damage/Plumbing Leak**

Our maintenance team repaired two leaking bathtub faucet stems, re-caulked the tub surround, and installed two new splash guards. The damaged portion of the kitchen ceiling was subsequently repaired.

5. **A/C Not Working**

Our maintenance team determined that the circuit breaker for the A/C condenser unit was in the off position. The A/C is currently operating normally. A temperature reading at the pipe indicated 47.2 degrees Fahrenheit, while the interior thermostat showed a temperature of 70 degrees Fahrenheit.

I've attached before and after pictures for your review. Please let me know whether the above repairs and corrective actions have addressed all of the concerns identified in the citation and if there are any additional steps we need to take.

Additionally, if all of the cited items have been satisfactorily addressed, please clarify whether I am still required to appear at Magistrate Court on December 8, 2025, or whether my appearance can be waived.

Thank you for your assistance.
Sincerely,

J. R. Gibson
